REASONS FOR ALLOWANCE

The amendment filed on September 2, 2005 has been entered. The specification and claim 18 have been amended.

The replacement drawing sheet containing Figure 2 was received on September 2, 2005. The drawings are acceptable.

Claims 18-34 are allowed.

The following is an examiner's statement of reasons for allowance:

None of the prior art of record shows or suggests a device for the control of a hydraulically actuated clutch of an automatic transmission of a motor vehicle including a slide-valve, an electrically operated actuator, a pressure supply line, a pressure-relief line and a second piston arranged together in the manner set forth in claim 18, and particularly wherein the slide-valve has a valve piston which can move between a first working space which can be pressurized with a control pressure that can be adjusted by means of the electrically operated actuator, and a restoring space containing a restoring spring that acts on the valve piston, wherein the valve piston has several piston sections which delimit a pressure space which is connected via a line to a clutch space of the clutch and communicates either with a pressure supply line that delivers system pressure or with a pressure-relief line, depending on the position of the valve piston, and further wherein as an emergency operation device when the actuator is switched off, the pressure of the first working space is maintained during the transition to an emergency operating mode associated with the current operating mode by means of a
